

MACHINE KLEEN

RECIRCULATING
COLD PARTS CLEANING SOLVENT

DESCRIPTION: This green solvent cleaner aggressively tackles oil, grease, grime, carbonized and other similar soils on all metallic surfaces. Due to its relatively high flash point, spent solutions of this product are not considered hazardous wastes. Completely evaporates so no rinsing is required. Contains absolutely no water to eliminate the possibility for rust formation.

DIRECTIONS: PARTS WASHERS: Charge solvent per machine manufacturer's instructions. Change solvent when solution is too dirty to detect the green color. **SPRAY OR BRUSH CLEANING:** Spray or brush solvent on parts or equipment to be cleaned. Wipe or blow dry with air gun. **DIP OR SOAK CLEANING:** Dip parts into solvent. Allow to soak until grease and foreign matter are loosened. Metal parts may be soaked in cleaner for prolonged periods with complete safety. Upon removal, wipe or blow dry with air gun.
