

**An extremely soluble powder designed for use in making highly concentrated liquid car and truck pressure wash compounds.**

**Concentrated Stock Solution:** To make a clear, stable concentrate prepare a stock solution using 12 oz. Empire Powder per gal. water (4 lbs/5gal or 44lbs/55gal.).

**Mixing instructions:** For 5 to 55 gal. drums, fill container 1/4 full with water. Gradually add Powder at rate of 12 oz./gal. of stock solution desired (4 lbs/5gal or 44lbs/55gal.). Thoroughly dissolve with hot water by placing cleaning gun nozzle or water hose into mixture; allow to run until container is full. For large tank, add 6 in. of water. Follow with required amount of Powder; agitate while adding balance of water. Mix until solution is clear.
